

Found Objects Assignment

Dear Parents

In our music program, we are learning about how sound is made.

As a part of our study, we have been exploring sounds made by objects around the house (or shed).

Next week we would like students to bring something from their own home, with which they can make a sound.

We would also like them to invent a sound word to describe their sound, such as *bang*, *thud*, *clatter*, *rustle*, *boing*, *flap*, *zing*.

Tins and Tubes Assignment

Dear Parents

In our music program, we are learning about how sound is made.

As a part of our study, next week we will be making music with tins and tubes.

We would like the students to bring along to school a tin or tube of some kind. Here are some suggestions.

*coffee tins, potato chip tubes, tennis ball tins,
post pack tubes*

All tins will need to have a lid.

Note: all containers need lids, no glass
