

DANCE: Floor Plan

CD 3: TRACK 09

Marching Soldiers (The Bold Gendarmes)

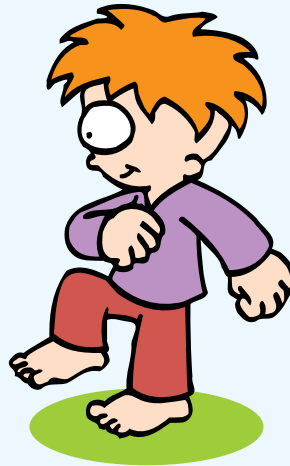

Patterns

In pairs, make up a march where you pretend to be soldiers and march around the room in time to the music.

You can march on the spot, march forward, turn to face a different direction and march forward again.

You can make up your own marching dance.

Try to use a large amount of space.

RESPONDING

Draw a line on a piece of paper that shows where you marched in the room/space.

If you don't remember, ask your partner if he/she remembers.

If you need to perform your marching again so that you can remember what to draw, ask your teacher's permission to go through the marching again.
