

Rain Forest

Picture a rain forest with butterflies, frogs, birds, caterpillars, tree ferns, flowers, running streams and raindrops.

The sounds in the rain forest are many and varied. Using the notes:

G A B \flat C D E F

create short riffs to suit the style and mood of the *Rain Forest* backing music. Be sure to play the recorder quietly.

Here are some examples of short riffs:

Ferns

Raindrops

Butterflies

Play C and D, repeating them as fast as you can  etc...

Creating

Create the *living heart* of the rain forest:

- feel your heart beat (place one hand under your chin) and on every 10th pulse play any note on a glockenspiel or chime bar.

Try this in a group.
