Drama Games

by Domm Camenzuli

Thank you for purchasing these drama games. They come from a 3 volume collection called *40 Simple Drama Games*, *40 More Simple Drama Games* & *The Final 40 Simple Drama Games*. The 120 games are available as separate downloads (2 per download) or as collections.

The 3 volumes are also available in hard copy (or physical product).

- Minimum reading/preparation time
- Great warm-ups and group focus activities
- Ideal also for rewards or end-of-lesson activities
- Good for rainy days and camps

Name of Activity: **THE MACHINE**

Aims: To develop coordination.
To enhance motor skills whilst exploring voice.

How it works: Students stand in large circle. One student moves to centre of circle. Student chooses a repetitive movement and accompanying sound. A second student enters circle and connects with first student to begin to make *The Machine*. The machine builds until all students are part of it, making connective movement and sound. The teacher makes the machine go faster and faster. Finally, it explodes!

Name of Activity: **FRUIT SALAD**

Aims: To develop skills in:
• Listening
• Following instructions
• Responding quickly & correctly

How it works: Students are paired off. They sit in two long rows, pairs facing each other with their feet touching. One row is **A**, the other, **B**. (*Establish one end-pair as the **TOP** and one end-pair as the **BOTTOM** of the rows*). All pairs are named after different fruits. When the teacher calls out a particular fruit, that pair jumps up and runs through the inside of the two rows, hopping over the other students' legs (*allow for spaces*). The pair continues to run until they reach the bottom. They then run along the outside of the rows, back to the top and then down through the middle of the rows until they reach their starting point. The first student to sit down wins a point for their row
